

WANTED COMPANION

Well-seasoned elderly backwoods gentleman rancher and landowner extraordinaire is looking for a bountiful hard working outdoors orientated woman between 30-50 years old who mingles well with people and isn't scared of the dark. Must be healthy and firm, as I am not taking on any more baggage. Must be able to cook and enjoy most backcountry foods as buying store bought things is not an option. This candidate also must not be afraid of heights and be able to paint and repair roofs since I no longer want to do this type of manual labor. Mechanical experience along with normal fence mending and logging abilities will make an ideal match. An added plus would be if there was experience in processing bush beef and road kill at a moments notice without leaving any trace behind. I do have an experienced teacher if training is required. She must enjoy extended stays in the boonies and be able to enjoy the company of residents from Franklin County and other foreign counties such as Perry, Lebanon, and Addison Twp residents. An avid camper and hunter/trapper is an added bonus along with an active bank account, personal 4-wheeler, and own rifles. I will supply ammo if required. Also if you are into muzzleloaders, bring your muzzle with. There are times when Hunting Camp is NOT co-ed and you would have

to stay home and run the ranch for a short month or two during the hunting season.

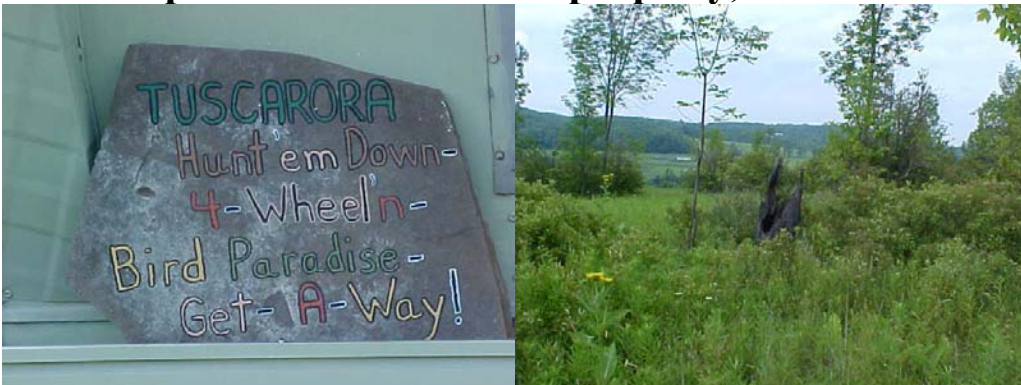

To be a compatible companion, the applicant must be able to enjoy the handling and taking care of various ranch animals and resident animals both domestic and wild, and taking care of ranch chores, including but not limiting to plowing, planting harvesting, fertilizing, cleaning, chasing run aways, and overall field work. A driver's license is NOT required since in Franklin County there are no real roads to drive on! A 4-wheel drive pick-em-up truck however would be a nice touch tho.

A few facts about myself;

Location where I once lived a long time ago. This is what is left of our plantation. We didn't have a lot, but the view was fantastic. We enjoyed the great out-doors and surroundings when we weren't beating off the Indians. What a wonderful childhood.

This is a picture of some of the property, which I own.

I am very partial to wild animals, which live on my estates. We live in harmony with each other and they know who's boss. We have very few problems with them.

As you can see I am family oriented and children are not really a problem. I have facilities to keep them entertained.

This is a clip of myself enjoying a little leisure time lounging in comfort with those I enjoy being with. As you can see, I'm kind of a down to earth person.

The landowner's private estate hands overseeing the upkeep of the various properties.

No Butt goofing off as usual
